**TEMPERATURE
SENSOR**

**MOTION
SENSOR**

4in1

Motion sensor, temperature sensor, illumination sensor and open/close sensor in one device. Vemmio 4 in 1 sensor offers great security and ambient sensing options. Multifunctional nature of this product allows you to detect motion, monitor opened/ closed status of any opening object, measure room's ambient temperature and light intensity. Vemmio 4 in 1 sensor has been tested to work smoothly with various controllers making your home automation system very stable and secure.

key features

Unique scale of temperature measurement range: - 25°C ~ 90°C

Movement sensor measurement range: 11 m

Network range: up to 100 m line of sight

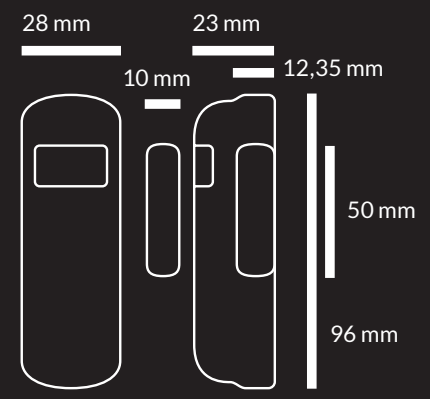

Illumination measurement range: 0 ~ 1900 lux

Two-sided reed switch

Safety: double tamper protection (front and back)

Wireless standard	Z-Wave Plus
Frequency	868.40 MHz
Network range	40 m indoor/ 100 m line of sight
Temperature measurement range	-25°C ~ 90°C
Operating temperature	-10°C ~ 40°C
Illumination measurement Range	0 ~ 1900 lux
Movement Sensor Measurement Range	11 m
Movement Sensor Angle	up to 110°
Magnetic gap	max. 20 mm
Battery	CR123A 3V
Battery	>2 years, low power indication
